Professional Summary

Full Stack Developer with hands-on experience building scalable enterprise applications using .NET, JavaScript, and cloud-based databases. Currently contributing to a production-grade Warehouse Management System with third-party logistics and ERP integrations. Strong backend focus with expertise in REST APIs, database design, and Amazon Aurora (PostgreSQL).

Experience

Inyxia <i>Full Stack Developer / Oracle Fusion Developer</i>	June 2025 – Present
<ul style="list-style-type: none">Developing and customizing EasyPick WMS, an enterprise warehouse management system, based on client-specific operational requirements.Designed and implemented RESTful backend services using .NET and JavaScript to support inventory, order, and shipment workflows.Integrated FedEx and UPS APIs to enable real-time shipment creation, label generation, and tracking.Built a one-click installer using the WiX Toolset to deploy application binaries and database configurations, reducing deployment effort and errors.Worked with SQL Server, Oracle, and Amazon Aurora (PostgreSQL) for transactional data management and system integrations.Implemented Oracle Fusion ERP integration to support end-to-end enterprise data synchronization.	

Salesforce

Nov 2023 – Dec 2023

Salesforce Developer Intern

- Completed a Salesforce virtual internship focused on platform development and customization.
- Developed backend logic using Apex and wrote SOQL queries for data retrieval and processing.
- Gained hands-on experience with Salesforce objects, workflows, and application customization.

Projects

EasyPick WMS .NET, JavaScript, SQL Server, Oracle, Amazon Aurora (PostgreSQL)	2025
<ul style="list-style-type: none">Built and customized warehouse management modules for inventory tracking, order fulfillment, and logistics operations.Designed backend services and database schemas to support high-volume transactional systems.Integrated FedEx and UPS APIs for automated shipment processing and tracking.Implemented Oracle Fusion ERP integration for seamless enterprise connectivity.	
EasyPick Installer WiX Toolset, .NET	2025
<ul style="list-style-type: none">Developed an automated installer to deploy application components and databases with minimal manual intervention.	
Multi-Player Games Platform React, Node.js, Express, Socket.io	2024
<ul style="list-style-type: none">Developed a real-time multiplayer gaming platform with live chat functionality.Implemented WebSocket-based communication for real-time gameplay synchronization.	

Education

Maharishi Dayanand University <i>Bachelor of Technology in Computer Science</i>	2020 – 2024
Scaler <i>Data Structures and Algorithms with Java</i>	2023

Technical Skills

- Languages & Frameworks:** C#, .NET, JavaScript, HTML, CSS, React, Node.js, Express, Java, Python, PHP
- Databases:** SQL Server, Oracle, MySQL, PL/SQL, Amazon Aurora (PostgreSQL)
- Tools & Platforms:** Visual Studio, VS Code, Git, WiX Toolset, Firebase, XAMPP
